A Letter To Prospective Lady Firearms Instructor Candidates;

Woman-power plays many important roles in human life. Today, in our country and world, people need much support to discover and remember the essential connection between the right to firearms and the preservation of Liberty. The Woman Firearms Instructor has great capability to share this truth in ways that sink deep roots.

Mothers are an unspeakably wonderful source of learning to young sons and daughters. As we see in life, so often our opinions are absorbed directly from our parents' beliefs. The more children who learn clear wisdom on this point of the goodness of protective capacity, the better the opportunity *Freedom supported by constitution* has to endure in this world.

The Woman Instructor who has the courage to begin, with care and support, will soon develop a rapport with students that can make a great difference. ***Please esteem greatly your potential worth and value in this capacity.*** Should another woman realize she needs to learn to defend herself, your presence and preparedness to teach her may give her the confidence to do what her intuition says is needed.

Remember, especially at the start, you can supplement your knowledge by having experienced instructors on hand to tackle challenging questions that arise during an instructional segment you are running. Additionally, it is possible to get back to a student with an answer to a stumper question at a later time.

Any prospective woman firearms instructor candidate of any honorable curriculum is welcome to contact us for supportive encouragement towards clearly setting your goals and powering forward towards their achievement.

Blessings on your program,

Guy

Guy Masterson,
Training Counselor,
Chief Range Safety Officer

"There is a way just right for you to safely accomplish your firearm goals."

Teaching NRA Programs In The Spirit They Were Conceived

Refuse To Be A Victim® Seminars

Pureland Security Mission Statement:

To conduct National Rifle Association approved offerings in the manners required and requested by the NRA Training Department. To serve the life respecting and law abiding community by teaching the knowledge, skills and attitude to successfully protect self and loved ones. To train and certify the next generation of NRA firearms Instructors in a spirit giving every advantage towards their successful fulfilment of bright and wonderful standards.

Program Information:

Refuse To Be A Victim® Seminar is offered FREE to the community 8 times each year and 4 times for Girl Scouts of Colorado & community youth ages 12 & up. Younger children may attend with parent approval.

Basic Pistol is an 8 hour introduction to handguns featuring a careful explanation and study on firearm safety rules, the parts and actions of the revolver and semi-automatic pistol and a responsibly directed range session. Contact us for information on concealed carry permit authorization.

MQP - NRA's Marksmanship Qualification Program is a great self-monitored system to develop your shooting.

Instructor Certification Training is offered at least once each year. Become an NRA Certified Firearms Instructor; help your friends, family & neighbors be safe against criminal violence and help your country preserve traditions that convey a lifestyle of honor.
